

MOVE CREDIT CARD DEPOSITS ON SALES ORDERS TO BANK RECONCILIATION ... EASILY!

WHAT DOES FLEXIDEPOSIT DO?

FlexiDeposit is a cash-management tool that augments the standard Sage 100cloud process for posting customer payments, giving you greater speed and flexibility in your deposit-posting process.

It integrates seamlessly with your Sage 100cloud system, and once installed, acts just like any other part of your ERP.

WHAT COMPANIES WOULD BENEFIT FROM FLEXIDEPOSIT?

Though FlexiDeposit can handle any kind of deposit transaction, including cash and checks, its **primary use is for credit card payments**, because the solution helps you **manage settled funds in your General Ledger asset accounts and your Sage 100 Bank Reconciliation module**, net of adjustments.

With this enhancement, it's easy and quick to select, clear, and process your Sage 100 deposits, using straightforward buttons and tools that make sense and save time.

HOW FLEXIBLE IS FLEXIDEPOSIT?

FlexiDeposit is easy to use and works with VelocIT Connect integrated to your Sage 100cloud system.

The install process is fast and simple – just like your deposit processing will be when you're using the solution.

FlexiDeposit is part of the VelocIT FlexiSuite, which also includes FlexiPay.
